

Focus March 2012

Featuring our annual update on  
Society for College and University Planning  
(SCUP) North Atlantic Region

# Institutions & Schools

Do you have an interest in planning, designing or building a facility for a college, university or school? If so then don't miss the focus of our March issue.

Extra - Extra

**BUILDING ENERGY 12**

CONFERENCE + TRADE SHOW FOR RENEWABLE  
ENERGY AND GREEN BUILDING PROFESSIONALS

The March issue receives extra distribution March 6 - 8, at NESEA's BE-12 trade-show at Boston's Seaport World Trade Center. If you offer services that incorporate sustainability into your design this is the issue to tell us about them!

The new **Facilities for Life Sciences** section will be featured in the March issue as well.. You are invited to send news and activities of the people and companies that design and build life sciences facilities in New England.

You are invited to send news, articles and advertise your services for these focus topics and for our regular pages.

Reserve your space now...

Copy deadline February 19
